Dear Harold:

Please find attached the fourth section of Appendix "A". Once again, I appreciate and respect your time committments. As always, your comments are invited and appreciated.

I realize that you have a lot before you on your plate, so to speak. However, you may want to peruse this before you finish other materials I have sent you. In essence, as you will see, it is an extension of work you started in 1966 with Whitewash II; if you can examine the conlcusions thus contained I would really appreciate it.

May your health only improve; as always, with respect,

Regards,
